

WHY ACCIDENT INSURANCE IS IMPORTANT

DID YOU KNOW?

Major medical insurance doesn't cover everything

There could also be deductibles, copays, coinsurance and other costs, including caregiver expenses, transportation, lost wages and more.

1-in-5

In one year, 62 million people—about 1-in-5—seek medical attention for accidental injuries

86%

Approximately 86% of all accidents in the U.S. happen outside of the workplace—and aren't covered by workers' compensation.
